

*Dear Parents,*

*We are making progress in our Spanish class, and I would like to inform you of our activities. We now are ready to begin Unidad 6, Lecciones 1 and 2. Unidad 6 focuses on the places, situations, and traditions of the people of the Dominican Republic and affords a variety of activities with which students will continue to develop new skills for reading, writing, speaking, and listening to Spanish.*

*Upon completing Unidad 6, students will be able to use their new vocabulary and grammatical structures to discuss their own experiences. Also, they will be able to compare the Spanish language and the cultures of the Dominican Republic to their own experiences and communities.*

*Some of the subjects that will be covered in Lecciones 1 and 2 are sports, sports equipment, parts of the body, staying health, and talking about whom and what one knows. In this unit, our class will start to speak about past activities through preterit verb tense and will learn the difference between the verbs saber and conocer.*

*I would like to take this opportunity to thank you and your family for your active involvement in and continued support of your child's progress. If you have any questions or concerns as your child learns the skills necessary to communicate in Spanish, please feel free to contact me.*

*Sincerely,*

*Mrs. Abad*
